Disclaimer

Commissions, management fees and expenses all may be associated with investments in exchange traded funds (ETFs) managed by Hamilton ETFs. Please read the prospectus before investing. The indicated rates of return are the historical annual compounded total returns including changes in per unit value and reinvestment of all dividends or distributions and does not take into account sales, redemptions, distribution or optional charges or income taxes payable by any securityholder that would have reduced returns. Only the returns for periods of one year or greater are annualized returns. ETFs are not guaranteed, their values change frequently and past performance may not be repeated.

The yield is calculated by taking the most recent distribution, annualizing it for distribution frequency, and dividing by the NAV per unit on the "Last Distribution Date." The yield calculation excludes any additional year-end distributions and does not include reinvested distributions.

Growth of $100,000 invested since inception is used to illustrate the effects of compound growth. It is not intended to reflect future returns on investments in the ETF.
