Reasons to Invest in HEB

5.14% initial target yield with monthly distributions

Lowest cost Canadian bank ETF, offering convenient diversification

Tax efficient distributions and a history of consistent dividend growth from the Canadian banks

Commissions, management fees and expenses all may be associated with investments in exchange traded funds (ETFs) managed by Hamilton ETFs. Please read the prospectus before investing. The indicated rates of return are the historical annual compounded total returns including changes in per unit value and reinvestment of all dividends or distributions and does not take into account sales, redemptions, distribution or optional charges or income taxes payable by any securityholder that would have reduced returns. Only the returns for periods of one year or greater are annualized returns. ETFs are not guaranteed, their values change frequently and past performance may not be repeated.
