**HAMILTON ETFS**

Fund Objectives

The fund seeks to generate long-term returns from an actively managed equity portfolio by investing in companies located around the globe that are innovating and supporting the financial services sector primarily through the use of data and technology.

Reasons to Invest in HFT

Data & new technology are supporting the transformation of banking, capital markets and investing

Over the next decade, financial services will evolve, adapt and innovate to meet changing consumer preferences; HFT offers exposure to the companies leading the transformation

HFT offers growth opportunities and portfolio diversification, with limited overlap to traditional sub-sectors (banks, insurers, others)

Commissions, management fees and expenses all may be associated with investments in exchange traded funds (ETFs) managed by Hamilton ETFS. Please read the prospectus before investing. The indicated rates of return are the historical annual compounded total returns including changes in per unit value and reinvestment of all dividends or distributions and does not take into account sales, redemptions, distribution or optional charges or income taxes payable by any securityholder that would have reduced returns. Only the returns for periods of one year or greater are annualized returns. ETFs are not guaranteed, their values change frequently and past performance may not be repeated.
