The investment objective of HUTS is to replicate, to the extent reasonably possible and before the deduction of fees and expenses, a 1.25 times multiple of the performance of the Solactive Canadian Utility Services High Dividend Index TR (rebalanced semi-annually).

Reasons to Invest in HUTS

6.49% yield with monthly distributions

Designed to provide **consistent distributions** and stability through all market cycle conditions

Traditionally, utilities have been regarded as a **relatively defensive** sector and a stable source of Canadian dividends

Commissions, management fees and expenses all may be associated with investments in exchange traded funds (ETFs) managed by Hamilton ETFs. Please read the prospectus before investing. The indicated rates of return are the historical annual compounded total returns including changes in per unit value and reinvestment of all dividends or distributions and does not take into account sales, redemptions, distribution or optional charges or income taxes payable by any securityholder that would have reduced returns. Only the returns for periods of one year or greater are annualized returns. ETFs are not guaranteed, their values change frequently and past performance may not be repeated.
