Higher Income from Canadian Financials

The **Hamilton Canadian Financials Yield Maximizer ETF (HMAX)** is designed to provide higher monthly income from Canada's 10 largest financial services companies while employing an active covered call strategy.

HMAX Highlights

- Monthly distributions
- Exposure to Canada's largest banks and financials with ~70% weight in the 'big-5' banks
- Active covered call strategy to enhance monthly income and reduce volatility
- Current coverage ratio ~50% (at-the-money) to generate higher income than other Canadian bank covered call ETFs

Attractive Monthly Income

**HAMILTON ETFS**

Investment Objective

The investment objective of HMAX is to deliver attractive monthly income, while providing exposure to a market cap-weighted portfolio of Canadian financial services stocks. To reduce volatility and augment dividend income earned on the equity holdings, HMAX will employ a covered call option writing program.

What Makes HMAX Different?

Many covered call ETFs write options on ~30%-50% of portfolios, out-of-the-money

HMAX is able to provide higher monthly income with a dynamic covered call strategy, currently writing options on ~30% of the portfolio, at-the-money, which offer higher premiums

This allows HMAX to generate higher options premiums while maintaining ~50% upside potential

Holdings

Royal Bank of Canada	22.6%

Disclaimers

Commissions, management fees and expenses all may be associated with investments in exchange traded funds (ETFs) managed by Hamilton ETFs. Please read the prospectus before investing. The indicated rates of return are the historical annual compounded total returns including changes in per unit value and reinvestment of all dividends or distributions and does not take into account sales, redemptions, distribution or optional charges or income taxes payable by any securityholder that would have reduced returns. Only the returns for periods of one year or greater are annualized returns. ETFs are not guaranteed, their values change frequently and past performance may not be repeated. The yield is an estimate of the annualized yield an investor would receive if the most recent distribution remained unchanged for the next 12 months, stated as a percentage of the price per unit on the as at date.

1. As at January 31, 2024. Distributions are not fixed or guaranteed. Hamilton ETFs may, in its complete discretion, change the frequency or expected amount of these distributions. Target yield is an estimate of the annualized yield an investor would receive if the target distribution remained unchanged for the next 12 months, stated as a percentage of the net asset value per unit on the as at date.
