UMAX

Hamilton Utilities
YIELD MAXIMIZER™ ETF

HAMILTON ETFS

Investment Objective

UMAX is designed for attractive monthly income, while providing exposure to a portfolio of utility services equity securities, primarily domiciled/listed in Canada and the U.S. To reduce volatility and augment dividend income, UMAX will employ an active covered call strategy. UMAX does not use leverage.

What Makes UMAX Different?

Many covered call ETFs write options on ~30%-50% of portfolios, out-of-the-money

UMAX is able to provide higher monthly income with a dynamic covered call strategy, currently writing options on ~50% of the portfolio, at-the-money, which offer higher premiums

This allows UMAX to generate higher options premiums while maintaining ~50% upside potential

Disclaimers

Commissions, management fees and expenses all may be associated with investments in exchange traded funds (ETFs) managed by Hamilton ETFs. Please read the prospectus before investing. The indicated rates of return are the historical annual compounded total returns including changes in per unit value and reinvestment of all dividends or distributions and does not take into account sales, redemptions, distribution or optional charges or income taxes payable by any securityholder that would have reduced returns. Only the returns for periods of one year or greater are annualized returns. ETFs are not guaranteed, their values change frequently and past performance may not be repeated. The yield is an estimate of the annualized yield an investor would receive if the most recent distribution remained unchanged for the next 12 months, stated as a percentage of the price per unit on the as at date. The yield calculation excludes any additional year end distributions and does not include reinvested distributions.
