

QDAY

Hamilton Enhanced
Technology DayMAX™ ETF

Investment Objective

The investment objective of QDAY is to deliver attractive income while providing exposure primarily to U.S. technology-focused equities. To supplement income earned from its holdings, QDAY employs an actively managed, primarily ultra-short-term, option strategy. QDAY uses leverage in order to seek to achieve its investment objective. Leverage is created through the use of cash borrowings or as otherwise permitted under applicable securities legislation. The maximum aggregate leverage of QDAY will not exceed approximately 25% of its net asset value.

Sector Allocation

Portfolio Date: 2026-03-31

Geographic Allocation

Portfolio Date: 2026-03-31

Highlights

- Exposure to technology stocks with semi-monthly distributions
- Active daily options strategy (ODTE) to generate attractive income
- Modest 25% leverage to enhance income and growth potential
- Actively managed by an options team with 50+ years of combined experience
